Dear Dr. Vanderlyn:

46 47) You will remember me, I hope, from Columbia, where I enjoyed working at the Indexing of the Genetics sections of Bio Abstr, a little over a year ago.

I am anxious to ~~learn~~ whether there might be some openings for similar work this year, and I would appreciate any information that you could provide on this point. My qualifications are primarily in genetics, biochemistry, and bacteriology; I should like also to speak for my wife who is equipped for general botany, mycology and genetics. We should be particularly pleased to hear of any work that might be in prospect this summer, when we expect to be at Woods Hole.

Have your plans for a journal of 'cellular logistics' begun to bear any fruit as yet?

Yours sincerely,

Joshua Lederberg
